ABSTRACT

Comprised primarily of tables and graphs, this report provides data on enrollment, outcomes, and staff at Michigan's 28 community and junior colleges, focusing primarily on the 1995-96 academic year. The first section provides enrollment data as of fall 1996, including enrollment from 1986 to 1996 for each college and systemwide and fall 1996 enrollment by ethnicity, gender, full-/part-time status, first-time status, and age. The second section presents data on year-end program and non-program enrollments for 1995-96 by ethnicity, college, and program name or area, and for occupational courses. The next section offers data on degrees conferred between July 1995 and June 1996 by ethnicity, college, and program and includes data on occupational degrees conferred by college and program. The fourth section provides placement data for 1994-95 graduates by college, while the fifth profiles faculty and staff for 1996-97, including data on ethnicity by gender for full- and part-time administrators, faculty, non-teaching professionals, and support staff. The sixth section offers comparative data on occupational fiscal expenditures from 1993-94 through 1995-96 and occupational expenditures by college for 1992-93 through 1995-96. The final section presents 1995-96 data on standards and measures used by the system, including college success rates for basic, advanced, and occupational work skills attainment and non-program enrollments related to occupational work skills attainment.
